Blue Trainer Bellows Drill

Protocol RT-TRAIN-014 · Revision 2 · Effective 1 November 2026 · Issued by the Lakeside Training Hospital Respiratory Education Committee (a fictional body).

Summary of changes in Revision 2

The adult starting rate and highest rate are raised. The pediatric recheck is shortened. The servicing interval is lengthened. The Charge Educator replaces the Simulation Lead as the person who issues the drill order and the first person to call.

1. Purpose

This invented protocol exists only to test Department Hub. It describes a classroom drill on the Blue Trainer bellows, a device that does not exist. Rates are counted in marks per minute (mk/min), a unit made up for this document.

2. Who may run the drill

Only a therapist who holds a current Blue Trainer card may run the drill. A student may run the drill only while a card holder is present in the room.

3. Drill order

A written drill order from the Charge Educator is required before the drill is started. A verbal request is not a drill order.

4. Rates by age band

Age band	Starting rate	Highest rate	Recheck after
Adult (18 years and over)	14 mk/min	22 mk/min	10 minutes
Pediatric (under 18 years)	6 mk/min	10 mk/min	4 minutes

5. Adult drill

For an adult manikin, start the bellows at 14 mk/min. At each recheck, raise the rate by 2 mk/min while the green lamp stays lit. Never set an adult rate above 22 mk/min.

6. Pediatric drill

For a pediatric manikin, fit the small cuff and start the bellows at 6 mk/min. At each recheck, raise the rate by 1 mk/min while the green lamp stays lit. Never set a pediatric rate above 10 mk/min.

Do not run a pediatric drill with the large cuff fitted.

7. When the drill must not be started

Do not start the drill if the amber seal lamp on the manikin is lit, or if the bellows was serviced within the last 48 hours. This applies to adult and pediatric drills.

8. When to stop

Stop the drill at once if the red lamp lights or the gauge reads above 30 marks.

9. Who to call

After stopping, call the Charge Educator. If the Charge Educator does not answer within 5 minutes, call the Education Supervisor.
